Day 1

Day 2

WELCOME

Dear Attendees,

Welcome to the 3rd edition of **Critical Minerals Japan Conference and Exhibition!** We are honoured that you can join us here at this premier international event dedicated to critical minerals which are vital to Japan's economic and national security.

Similar to other major global powers, Japan has been actively seeking partnerships in the area of critical minerals. Most recently in July during Prime Minister Sanae Takaichi's state visit to India, both countries agreed to strengthen supply chain resilience in strategic sectors such as semiconductors and critical minerals.

In addition, Japan is also recycling critical minerals from electronic waste and exploring deep sea mining. In February 2026, Japan demonstrated the technical feasibility of continuously pumping rare earth-bearing mud from the ocean floor near Minamitorishima Island. This breakthrough marks a technical milestone and advances Japan's broader science and technology agenda, but its contribution to supply chain security remains uncertain. High costs, uncertain yields and processing constraints limit its viability as a meaningful alternative. For now, deep sea mining remains only one component of a broader strategy that includes stockpiling, recycling and overseas resource development.

At Critical Minerals Japan Conference and Exhibition, we seek to share knowledge, facilitate important conversations and help regional and global mining industry stakeholders stay abreast of the latest trends and developments. We have representatives from diverse industries, ranging from finance, legal, mining, energy and academia, who are all committed towards a common goal of strengthening Japan's critical minerals sector. We hope you can build on the diversity of attendees to make excellent connections and forge new business opportunities.

This event in Tokyo is part of our global Energy Transition, Critical Minerals and Mining Investment Conference Series. To date, this Conference Series have been held in Singapore, Japan, India, Australia, UK, United Arab Emirates, Canada and USA. We also organise MiningTech Conferences in Vancouver, Canada and Sao Paulo, Brazil. Globally, our events cover Africa, Australia, Asia, Latin and North America and Europe. To find out more, you can speak to us or browse at our website www.spire-events.com.

In closing, we hope you will have a great Critical Minerals Japan Conference and Exhibition experience ahead.

Yours sincerely,

Daniel Radziszewski

OUR GLOBAL OUTREACH

**Mining & Critical Minerals Middle East
Conference & Expo
(16 - 17 September 2026)
Dubai, United Arab Emirates**

**MiningTech South America
Conference & Exhibition
(1 - 2 October 2026)
São Paulo, Brazil**

**Mining & Critical Minerals Europe
Conference & Exhibition
(20 - 21 October 2026)
London, United Kingdom**

**MiningTech North America
Conference & Expo
(9 - 10 November 2026)
Vancouver, BC, Canada**
